Declass Review by NGA.

ATTENTION: [REDACTED]

SUBJECT : Spare Parts, High Magnification Lenses - Briefing  
Print Enlarger

1. Information recently received from [REDACTED] indicates that Base Spare Parts for the Briefing Print Enlarger on order by DIA is estimated at [REDACTED] including fixed fee. These costs are based on combining fabrication of eight kits with packaging and crating included and shipment to be FOB, [REDACTED]

2. Additionally, a quota of [REDACTED] was submitted for one set of High Magnification Lenses consisting of one (1) 60X to 97X lens and condensor and one (1) 95X to 153X lens and condensor with storage cabinet.

3. There remains an estimated [REDACTED] as the DIA portion of Task Order #4, Contract [REDACTED]. If it is still the desire of DIA to expend that portion required for spare parts and lenses as above, please advise [REDACTED] immediately as nine months are estimated for completion of the kits after contract approval. An attempt is being made to reduce this time and make interim shipments.
